distresses me deeply, but I am each county at the central auction unable to reconsider the position and there the buyers will have I consistently have maintained, the privilege of bidding on about namely, that I would not seek the 750,000 pounds of Kentucky' nomination for the presidency. I wool. cannot, therefore, permit my name to go before the convention. This decision is irrevocable, as the path of duty seems to me clear and unmistakable.

"The consideration which comof the Treasury and Director General of Railroads, after the armistice in 1918, in large measure still prevail. I must have a reasonable opportunity to rehabilitate my private affairs and to wake that provision for my family, which in time of peace, is at once the sacred duty and cherished desire of every right-thinking man. Having been out of office less than eighteen months. I have not vet been ables to accomplish these objects.

"Moreover, a presidential campaign imposes upon the candidate unavoidable expenses which I am unable to assume, and which I do not want my friends to assume.

"The record of the recent republican campaign and the platform and candidates of the republican convention make democratic victory in the next election almost certain. Victory would be certain if the democrats adopt a straightforward, unequivocabel, unevasive, honest and liberal platform and put forward candidates who will command public

"We must stand squarely for ratification of the League of Nations without debating reservations, and we must be direct and explicit on the important domestic issues. The time is not propitious for equivocation or for appeals to blind passion or to doctrines of hate, or for reactionaries and those who would shut their ears to the great and swelling voice of humanity which cries aloud for the restoration of peace and good will at home and in the survey be made by non-residents world and for the opportunity to of the state. live in an atmosphere of justice, progress and prosperity.

"I feel sure that my friends will appreciate the sincerity and propriety of my position and that they will do everything in their of the American Institute of Homeopower at San Francisco to assure pathy ad associated organizations to DETROIT PAYS HIGHEST the continuation of the enlighten- be held here June 20 to 25. FRIENDLY HOME FOR

Salvation Army Does Fine Work In Louisville Institution For Women and Girls.

The Susan Speed Davis Friendly Home for Women in Louisville is controlled and operated by the Salvation Army and is one of the institutions to be helped by the money raised in the Home Service Appeal to be made by the Salvation Army, May 10 to 20. Four times as many cases were

cared for in this Home during the past year and during the year before. This work has been carried on in the Coal—Feed face of trying difficulties. It has been necessary to remodel and refurnish the Home, and in spite of this many have been cared for. Forty-three girls and young women were cared for there during the past month. Only six per cent of those cared for are over 18

years of age and many are under 14. The Susan Speed Davis Home gives welcome to all unfortunate girls and women, no matter from what part of Kentucky they come.

State Conference Held to Arouse Interest in Salvation Army Home Service Appeal, May 10 to 20.

In preparation for the final drive in he Salvation Army's Second Home Service Appeal, May 10 to 20, in Kentucky and other states east of the Mississippi river, a state conference of workers was held in Louisville on Wednesday.

Judge Henry S. Barker, of Louisville, the state chairman, presided and the toastmaster was Ben S. Washer, of Louisville, vice chairman and former national president of the Young Men's Hebrew Association. Governor Edwin P. Morrow, honorary state chairman, could not be present but, sent a telegram giving his hearty endorsement and urging Kentuckians to leave no stone unturned to put Kentucky in the forefront of states in contributions. Governor James S. Cox of Ohio was also prevented from attending and sent a telegram of endorse-

Prominent workers from all parts of the state pledged themselves to do their best. Prof. George Colvin, State Superintendent of Public Instruction, delivered a splendid address in which he called upon all for renewed efforts in the big drive. Leading officers of the Salvation Army from this section told of their experiences in the actual work of the Army, most of them having served from 20 to 35 years in the ranks of this great organization.

Among other prominent workers in the Home Service Appeal are: Ben L. Bruner, secretary of the state executive committee; John R. Downing, treasurer; Dr. W. S. Lockhart, chairman of the speakers' bureau; Judge Walter V. Gregory, chairman of the publicity committee; Mrs. C. Malcolm Bullitt, Mayor George Weissinger Smith of Louisville, Hon. W. P. Lincoln. Marvin H. Lewis, Alvin T. Hert, Dr. E. L. Powell, Dr. E. Y. Mullins and Dr. Charles W. Welch.

It's the High Cost of Dying in China ernment for Pulaski county to give that big county a business like admin-

Kentucky Marine, Now Sleeping at

A Typical Chinese Monument

The Chinese bury their dead on the mountain side where the earth is dry and there is less danger of loods. The monuments are built along the highway to inform the public of the great men who have lived and died in the neighboring

A brief history of the dead man serves as an epitaph, and a tortoise or dragon, carved into the stone, symbolizes eternal life.

Death is an expensive proposition for the Chinaman. Only the leaders of community life are honored by monuments along the highway. But by the time even the average citizen's funeral expenses are paidwith numerous pallbearers and feasts for the mourners-well, it's cheaper to live.

There is an average of one doctor to every 400,000 Chinese. So the Interchurch World Movement, in which America's evangelical bodies are scooperating, intends to cut down funeral expenses for China by opening a large number of new hospitals and by strengthening existing institutions.

FOR RENT-One front room, nicely 'urnished, lights and all modern coneniences; none but men or man and wife who can furnisi. Eferences. Apply at house, No. 503 East Main street.

The Somerset Journal is beginning to agitate a commision form of government for Pulaski county to give istration. Winchester has a commission form of government, thanks to the Winchester Sun, and reports from

Would You Lose If Your Property **Burned Today?**

The destruction of that \$5,000 home you built a few years ago would lose to you the original cost, plus another \$5,000. For it costs \$10,000 now to build the \$5,000 home of 1914.

Likewise the loss of today of the business property that cost \$50,000 before Germany went mad ,would be \$100,000probably \$100,000 would not replace it.

BUY A Chevrolet

FOR THE MOST ECONOMICAL TRANSPORTATION

The present day value of an automobile lies in its degree of utility. The more it serves the more it saves. And in measuring the value of the Chevrolet by these standards, its real worth is revealed.

Like a true friend, the Chevrolet will wear well. It will not fail you in time of need. It will not be a burden to keep And the closer your acquaintance grows the greater will be the charm in its possession.

The Chevrolet represents an unusual value. This you will appreciate at first glance. But to know the full extent of its real worth, you must know more of the efficiency of its service—its capabilities for practical time and labor-saving

The popularity of Chevrolet cars has attained a reflection of the sound judgment of the thousands of discriminating purchasers who were convinced that the vast resources and sound manufacturing policies of the Chevrolet Motor Company were adequate to insure the production of thoroughly worthwhile products.

And the remarkable records that Chevrolet cars have made in the hands of these owners is conclusive proof that Chevrolet quality has an unquestionable right to the recognition and endorsement of all who believe in sane spending and

THE PHILIPPINES

Natives Spend Much Time and Money On Highways and Schools These Days

GOOD ROADS IN

Strange as it may seem, the Philippines Islands are spending nost of their money in building highways, since the introduction of the automobile. Hon. Jaime C. DeVeyra, re-elected as Philippine Commissioner at Washington, reports that many of the natives who are interested in the road work and automobiles, spend much of their time in road building, instead of murder, as before the Spanish-American war.

"The smaller islands, as well as the bigger and more densely poplated ones, are given the advantages of wonderful highways. Rugged Hohol Island has its first class roads over the hills into the interior. 'Dark and bloody Samar' has its system also, mostly along the coasts where formerly blood thirsty Pulajanes lay in wait for landing soldiers or blue

"The public works bureau has done wonders and combatted many difficulties and so have the auto pioneers who first took a chance in the provinces and established truck lines into the interior. The Island of Leyte was an example of this. Rich and fertile in the interior, but with no that made it. possible."

Multiplies Labor on the Farm

Lalley Light and Power

The actual time and labor savings on the farm with Lalley Light and Power are so conclusive that practically all Lalley owners figure that it actually takes the place of man-power.

They learn that it does this by enabling the same help to do more work; or by getting the same amount of work out of a smaller number of helpers.

Thus thousands of families all over the country are buying Lalley plants for other reasons besides their wonderful light.

They are even more attracted by the actual savings its power makes in time, money and especially in man-power.

Come in and let us prove its labor-saving economy out of actual owners' experience records. When seeing the Lalley you will the more readily understand its possibilities.

Tests That Proved Hudson Also Speak for Essex

Both Hold Performance Records That Have Never Been Equalled

In all Hudson's unmatched records this important fact is clear: No ability is sacrificed in one direction to gain supremacy in another. Hudson is the fleetest. Its stock car speed records have never been equalled. On the speedway its racing cars won more points than

any other team ever gained. But its speed means no forfeit of other qualities. For in official tests, the Super-Six has also out-performed all other types, in endurance, hill-climbing and acceleration. In every motor performance it has established leadership by unanswerable proofs.

Hudson Records Prove Its All-Round Mastery

Only a supreme advantage that others cannot use, could account for such all-round dominance. Hudson has it in the Super-Six motor. It minimizes vibration to within 10% of vanishing—nearer the ideal than any type we

In the same size motor the exclusive Super-Six principle added 72% to power and 80% to efficiency. Endurance is practically doubled.

How these qualities are valued by motorists is reflected in Hudson's five years of leadership of fine car sales. Today the demand is larger than ever.

Built by the same makers, Hudson's unequalled records also speak for Essex. They foretold performance never expected of a light

The prophecies now are facts.

And Essex Holds the World's 50-Hour Endurance Record

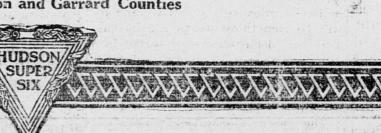

An Essex stock chassis set the world's 50hour endurance record of 3037 miles. That is officially certified by the American Automobile Association. And Essex holds the world's mark of 1061 road miles in 24 hours. A stock touring car did that.

Local road, speedway and hill-climbing records in every section of the country are held by Essex. Scores of abusive tests have proved the endurance that 30,000 owners find in the daily service of their Essex cars.

But it is not only in performance that Essex shows the same stamp of quality as Hudson. Its beauty of line, its luxury of appointment are the work of years of leadership in coach

See the care and completeness, even in the smallest details. Its riding comfort, its smooth, quiet running ease, with the suggestion of wellcontained reserve power, are qualities comparable to the finest of high-priced cars.

STOCKTON'S DRUG STORE

FOR THE SAKE OF OLD KENTUCKY

Says Hale Dean J. H. Dean, of the Richmond Motor Company, has returned from an extensive trip overland through Ohio, and has nothing but praise for the country roads in general. He is an advocate of road improvement work, and says that Kentucky should continue with the good work already un-

der way, and not stop until the high-

ways are put in good condition. It is

nothing out of the ordinary, he says, to have tourists speak of Kentucky's

Keep Up the Excellent Road Work Now Under Way,

roads, especially those making trips south, since many of them are avoiding passing through this state, owing to the condition of the roads. Many of the little towns along the Dixie Highway are paved several miles out, and almost reach the paving started their way by the residents of the neighboring town. The highway through Kentucky in some places is in a deplorable condition. "I don't like to say it, but the worst road in Ohio is better than the best one in Kentucky," said Mr. Dean in speaking of the condition of the roads.

Kentucky is appreciated in many ways, but the tourist always remembers the state, after having passed through it, he declared, by the deplorable condition of the roads. Mr. Dean is of the opinion that much hard work and a big expense lies in the path of putting the roads in the Wm. A. Holt work accomplished during the past few years will make a wonderful

Who Will Be the Husbandman?

Wednesday, June 23rd, 1920, 10:30 A. M.

Some Boaz may catch a Ruth, right here. Some of you old "birds" who have no mate. Get a pretty cage like this; you will get the singing bird.

SHELBY JETT FARM

——NOW OWNED BY THE UNDERSIGNED——

308 Acres Fine Blue Grass Land

subdivided into 50 to 200 acre tracts, well improved, gently rolling and up selling without reserve or limit.

LOCATION—Seven miles from Richmond, 2 miles from Kirksville and graded school; on either side of pike; adjoining the lands of Thomas Curtis and other good men, (and these are assets in any community.

IMPROVEMENTS—Handsome two story brick dwelling, must be seen to be appreciated; words will not describe the grandeur of this ideal home and its beautiful surroundings; excellent water system, with gravity pressure, insuring a flow at all times at a minimum or no cost; two garages, 2 stock barns, 3 tobacco barns, 2 silos, 4 small houses, two of which are good ones of 5 rooms each; 180 gallon underground gasoline tank, ice house, etc. Too much improvements? No. not an item out of proportion to this magnificent boundary of land.

We claim and stand for public contradiction that there are no less than \$250 per acre improvements on this 308 acres of land. Don't stand and say no, go see for yourself; place them at their fair value of today; they are absolutely essential, adding both to the comfort and necessities. Then they are an asset to be credited to the cost of the land for if they were not there a liability would be encountered as you would have to have them. Bear these facts in mind and you can readily figure what the land is costing you.

150 Acres Fine Tobacco Land

There is no less than 150 acres finest of tobacco land; 100 acres in old blue grass sod, and sand stone at that. It will pay for itself rented out. Opportunity knocks at the door of the man who can make the first payment; you will not have to bother about credit, it lies in the land and goes with the deed to the party or parties that buy it. Buildings on every tract.

MUSIC BY EXCELLENT BAND. Any man who has a fond sweet wife who has more than borne her side of ox yoke would love to work and save when a home like this was put ahead. Make your boys your partners if you want them to stay at home and fatten on the gold of life, you must leave the gates ajar, and let them have some of the pickings; your home will be nearer what it should be and they had rather be there han any other

place. Practice this and sell your automobile. Now if any of you good women are affected with any of these husbands who see hard times coming, all the clouds look like a cyclone and lost their silver lining, if any of you ladies have a husband like this, a simple remedy justified by the unwritten law, ask Tony Burnam, or any other lawyer, they will tell you; ask Moss Gibson or any other doctor in Richmond, if this simple remedy would not be the correct course to pursue: Take your hog box filled with 50 pounds of ice, 40 gallons of stagnant pond water, use 1 gallon sheep dip, soak him three days until bugs are removed, then take a small oak board, whip him out of the tub, lay him across a hemp break in the sun, let him dry for six hours, give three dog buttons using skimmed sour milk as a chaser, wrap him in a horse blanket, place him in a 4-year-old straw mattress, use a fly bush made of mullen stalks, see that bed bugs are diligent, have a loaded musket in easy reach of the patient. If he or she should feel like it would add to his or her comfort, see that it is promptly used. And should death ensue, bury him with military honors omitting floral designs except dog fennel blossoms; inscribe on marker "Here rests his head, on the lap of earth, a man to fortune and fame unknown, fair science smiled not on his humble birth and melancholy marks him for her own.

The sale will last but 50 minutes, after which the band will play "Hold That Wood Pile Down." Terms announced at sale. For further particulars see Covington Jett on the premises, or the undersigned.
